—Sidney Lanier in Albany Journal She Was Persuaded Not to Die.

A few days ago the friends of a pron inent society woman were startled by the report that she was dangerously ill In speaking of her illness to a particular friend of the lady the cause of it was brought out. She is allowed by her husband so much a month for dresses. During the last social season she bought so many handsome ball cos-tumes that her allowance only seemed a drop in the bucket toward paying for them. Her costumes attracted so much attention that her vanity was excited, and she endeavored, with each succeed ing dress, to surpass the last. This she succeeded in doing. Every action must have a corresponding reaction. Her pleasure, caused by being the best dressed woman in Louisville, has given place to her sorrow, caused by her having the largest millinery bills of any woman in

The bills were sent to her, amounting to \$1,200. She immediately retired to her bed. Doctors were sent for, but for a week she continued to grow worse. Her husband became alarmed, and told her that if she would just get well he would do anything for her. She said she could not. At last, in despair, she told him if he would just pay her bill and forgive her she would try and get well. He promised. He paid the bill. From that moment she began to recuperate, and in a few days was almost entirely well. She then confessed to her husband, who forgave her. She has promised to live within her allowance, which he has increased. So they are happy again.—Louisville Commercial

For Crippled Children. There is a charitable movement being carried on by several young society ladies of this city for the purpose of es tablishing a fund for the relief of the deformed and crippled unfortunates of the Children's hospital, deformed by nature or accident, and whose only hope in this world is derived from the sympathy and harity of others. Besides being de formed and crippled, many of these unortunate children are so poor as to prevent them from having such mechanical appliances as would, in a general measare, relieve their sufferings and contrib the appliances the fund of the Chil-dren's hospital is not sufficient to supply. These ladies propose to establish, with the aid of such persons as are willing to assist, a fund to be called the "crutch and splint fund" of the Children's hos

pital.

They propose to buy crutches, splints and the mechanical devices necessary for the use of these children, who are doomed to go through life crippled and -unless something is done in their be-half-in pain. Much suffering will be averted, and many childish faces now sad will light up with hope and cheerfulness. It will be necessary to have about \$6,000 for the support of this fund. -San Francisco Argonant.

They never look ahead nor think. People have been known to wait till planting season, run to the grocery for their seeds, and then repent over it for 12 months, rather than stop and think what they will want for the garden. VICH'S SEEDS never disappoint, is the verdict from the millions who have planted them. If n is Flower or Vegetable Seeds, Plants, Bullis, or anything in this line, MAKE, NO MISTAKE this year, but send to cents for Vick's Floral Cuide, deduct the sa cents from first order, it could nothing. This pioneer catalogue cantains there colored plates, Grandent Novelties ever offered, food in cash premiums to those sending club orders. Sase-cash pries at one of the State Fauri. Grand offer, chance for all. Made in different shape from ever before, too pages 8% to bly inches.
